

Ocean Song

Leslie Woods
Robin Nelson

CHORUS

Voice

F Dm B C

Just take hold of my tail, swim a-long with me, So

F Dm B C

much for us to learn from the o - cean and the sea.

VERSE

F Dm B C

Bu - bles form and rise a - bove as sun - light trick - les down.

F Dm B C

Fa - sci - na - ting life we see, swim - ming all a - round.

F Dm B C

Schools of fish of all co - lours, some are small some large,

F Dm B C

dar - ting 'round the co - ral reefs, but none are ta - king charge.

BRIDGE

A Dm A Dm A

I see plas - tic and tin cans, they sim - ply don't be - long,

Dm G7 C

let us go and pick them up, that will al - ways be our song,

Chorus

Just take hold of my tail,
Swim along with me,
So much for us to learn,
from the ocean and the sea.

Verses

1. Bubbles form and rise above
as sunlight trickles down,
Fascinating life we see,
swimming all around.
Schools of fish of all colors,
Some are small some large,
darting 'round the coral reefs,
But none are taking charge.
2. A marlin swims beside a squid,
An eel circles 'round,
A shark moves with fins of grace,
Never making a sound.
Tiny plankton become a meal,
For a big blue whale,
An open oyster shows it's pearl,
Dolphins flip their tails.
3. Seahorses entwine their tails,
Just let them be,
Flounder's eyes just peeking out,
Under the sea.
Ocean's hydrothermal vents,
That is where you'll find,
Tubeworms, shrimp and even crab,
All living unconfined.

Bridge

I see plastic and tin cans,
They simply don't belong,
let us go and pick them up,
That will always be our song.

Estribillo

Cuando me agarras a mí,
Podemos nadar,
Hay mucho que aprender,
Del océano y del mar.

Versos

1. Burbujas, se suben
Gotea el sol,
La vida fascinante,
Nadando todo.
Escuelas coloridas,
Peces grandes y chicos,
En arrecifes de coral,
Ningunos encargados.
2. Una pez espada, un calamar,
Una anguila rodea,
Un tiburón con gracia,
Nada en silencio.
Plancton es la comida,
De una ballena,
Ostra con una perla,
Delfines menean sus colas.
3. Entrelazan caballos del mar,
Los tenemos que dejar,
Una platija asomando,
Debajo del mar
Ventilaciones hidrotermales,
Podemos encontrar,
Gusanos, camarones y cangrejos,
Viviendo en libertad.

Puente

Miro latas y plástico,
No deberían estar,
Hay que recogerlos,
Siempre vamos a cantar.
